Cosmic Command Architecture & Non-Developer Universal Operation Codex

⚡ Helix Prefix: . (dot)

🌐 Dual Mode: Public / Private Quantum Nexus

🧬 Human-Friendly Decoded Language

📡 **Codex Transmission:** Every bot command is an operational trigger. Simply send the code in any WhatsApp group or private chat, or reply directly to any message/media. No coding required—the cosmic engine translates and executes instantly!

👤 Ghost Helix — Anti-Delete & Anti-Edit Warp

Intercepts and reveals deleted messages or stealthily edited texts across the chat matrix.

HELIX TRIGGER	PLAIN-ENGLISH DECODED FUNCTION	COSMIC REALITY / RESULT
<code>.ghost</code>	Checks if your anti-delete quantum shield is armed or sleeping.	Shield Check: "Ghost is armed (Active)"
<code>.ghost on</code>	Arms the anti-delete trap. If a user tries to "Delete for Everyone", the bot catches the text, picture, or voice note and re-posts it immediately.	Result: Nothing ever disappears from your sight.
<code>.ghost off</code>	Powers down the anti-delete shield. Deleted items are ignored.	Action: Restores standard WhatsApp behavior.
<code>.ghost edit on</code>	Monitors message mutations. If anyone edits a typo or sneakily changes their sentence, the bot exposes what they wrote first.	Result: See before & after message mutations.
<code>.ghost edit off</code>	Disables the edit tracker. Edited texts pass through unlogged.	Action: Silences edit notifications.

👁️ Peek Resonance — View-Once Quantum Extractor

Dissolves 1-time view restrictions on photos and videos, saving them permanently.

HELIX TRIGGER	PLAIN-ENGLISH DECODED FUNCTION	COSMIC REALITY / RESULT
<code>.peek</code>	Reply directly to any view-once photo or video. The bot breaks its expiry lock and sends it as a permanent media file.	Action: Reply to view-once photo → saved permanently.
<code>.peek auto on</code>	Fully autonomous radar! Whenever someone sends a view-once picture anywhere, the bot intercepts and converts it without being asked.	Result: Hands-free continuous unlocking.
<code>.peek auto off</code>	Disengages automatic interception. View-once stays normal until manually commanded.	Action: Pauses auto-capture.
<code>.peek watch on</code>	Monitors quoted replies to view-once messages so no media slips through the cracks.	Result: Watches quote threads for hidden media.
<code>.peek watch off</code>	Disables quoted view-once watching.	Action: Stops scanning quotes.
<code>.peek dest owner</code>	Directs unlocked view-once files exclusively to your private DM. Nobody in group chats knows.	Target: Covert secret delivery to your private inbox.

HELIX TRIGGER	PLAIN-ENGLISH DECODED FUNCTION	COSMIC REALITY / RESULT
<code>.peek dest same</code>	Sends the unlocked photo directly into the active chat room where it was sent.	Target: Re-shared in current group/chat.
<code>.peek dest both</code>	Dual-delivery: beams the revealed media to your private inbox and reposts it in the group.	Target: Mirrored to both destinations.

Lurk Horizon — Status & Story Astral Probe

Silently monitors contacts' WhatsApp status updates, reacts, and beams media to your vault.

HELIX TRIGGER	PLAIN-ENGLISH DECODED FUNCTION	COSMIC REALITY / RESULT
<code>.lurk</code>	Displays whether astral story-watching and auto-reactions are currently energized.	Output: Lurk status diagnostics matrix.
<code>.lurk on</code>	Instantly marks every contact's new WhatsApp status as "viewed" the exact microsecond it is posted.	Result: Instant 100% story-view streak.
<code>.lurk off</code>	Deactivates automated status viewing. Restores normal manual tapping.	Action: Shuts down auto-watcher.
<code>.lurk react on</code>	Fires an automated emoji reaction to contacts whenever they publish a new status update.	Result: Instant friendly engagement.
<code>.lurk react off</code>	Mutes automated status emoji reactions. The bot views silently.	Action: Stealth view without emoji ping.
<code>.lurk download on</code>	Automatically copies every image and video your friends post on their status straight into your personal inbox.	Result: Never ask "send me this status" again!
<code>.lurk download off</code>	Stops automated downloading of status media.	Action: Halts status media saving.
<code>.lurk emoji <emoji></code>	Locks in your favorite custom emoji for status reactions (e.g. 🍷, ❤️, 🔥, ✨).	<code>.lurk emoji ✨</code> → reacts with cosmic sparkle.
<code>.lurk emoji random</code>	Picks a different, delightful emoji at random for every new status update viewed.	Result: Dynamic natural-looking reactions.
<code>.lurk emoji none</code>	Ghosts the status: registers you on the viewer list without sending any reaction.	Result: Silent ghost view.
